I'm Matt Miller, and I know exactly how you feel. It's my passion to equip teachers to thrive in this new era of education and think differently about the craft of teaching.

- **I spent more than a decade in the classroom**, creating unique learning experiences for my students through technology and creative teaching.
- **I wrote the book *Ditch That Textbook*** about innovative teaching ideas and rethinking education.
- **I'm a Google-Certified Innovator**, a mark of distinction for cutting-edge use of G Suite tools in the classroom.
- I've been named **one of the top 10 influencers** in educational technology and elearning worldwide.

I provide **practical, "use it in class tomorrow" solutions** to teachers' classroom needs. I also help them focus on what's most important to keep education relevant.

Share one expectation and one concern about integrating AI in education.

Expectations of AI in education

- Sharing!
- Embrace it! Lead the way!
- Real world application and learning

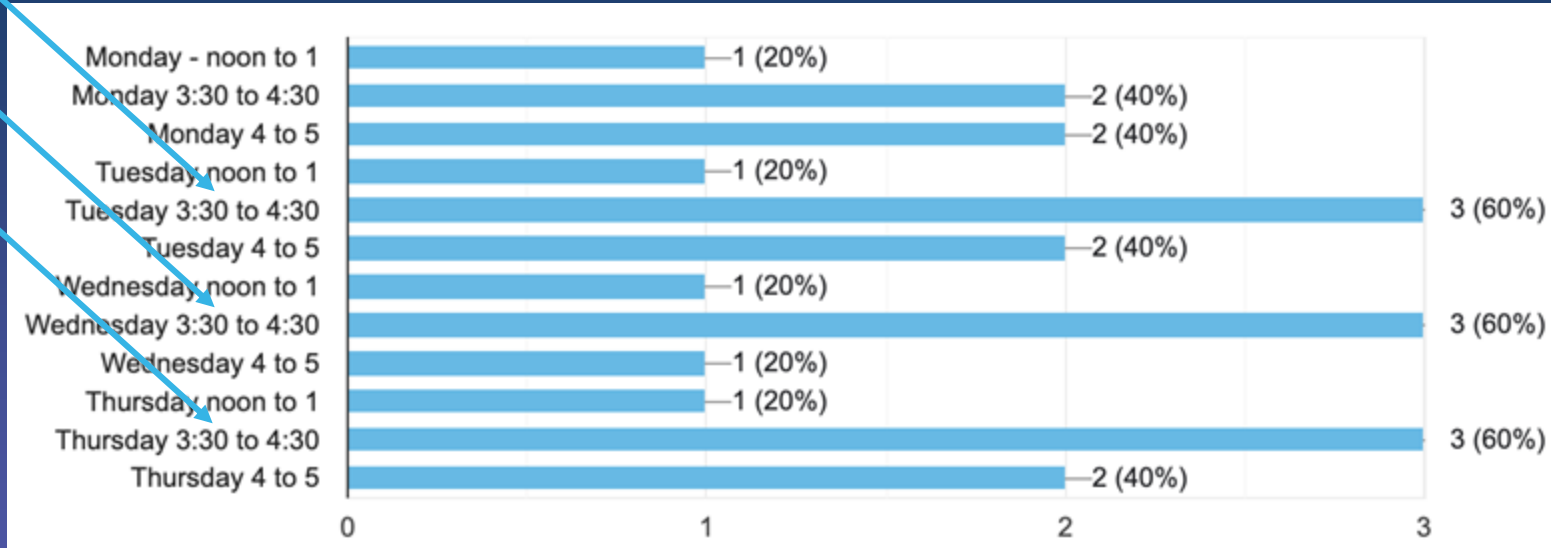

Concerns of AI in education

- Young ones (new staff too) don't know about it
- Why are we continuing with antiquated assessment in the face of this?
- We are being held back by limitations of what we're allowed to do with AI
