Re: Supporting hospitality customers serviced by BCL

Please share this communication with your membership.

As you are aware, BC Liquor Distribution Branch (LDB) distribution centres have resumed operations and BCLIQUOR (BCL) is pleased to welcome back and serve our hospitality customers.

LDB Wholesale Operations is taking steps to expedite resumption of operations as quickly as possible, but it may take some time for service levels to return to normal.

BCL Hospitality Hub centres

To support hospitality customers with replenishing their inventory as quickly as possible, BCL has set up 15 temporary Hospitality Hub centres where hospitality customers can purchase a selection of top selling spirits, liqueurs and import wine. We encourage hospitality customers to contact their closest Hospitality Hub centre (listed below) to confirm product availability.

Quantity limits on in-store purchases of spirits

While we work to replenish inventory at our BCL stores, we want to do what we can to support equal access to the limited products available.

The quantity limits of six items per SKU, per day will remain in place for all in-store purchases of spirits available in BCL stores, including Hospitality Hub centres.

We will revisit this temporary measure once we are able to confirm a timeline for when our stores will have replenished inventory.

Non-stocked wholesale products (NSWP) spec orders and direct delivered product

With the reopening of LDB distribution centres, BCL stores will resume accepting and coordinating orders from hospitality customers for NSWP in addition to orders for regular direct delivered product.

Our customers and partnerships are very important to us, and minimizing further disruption is our highest priority.

Thank you for your patience and understanding as we take steps to resume normal services as soon as possible.
